Electronic Federal Select Agent Program (eFSAP) Information System

Inspection Module Updates

February 2022
eFSAP Inspection Module Updates

Hybrid Inspections

• eFSAP now links an initial remote inspection with an on-site follow-up visit

• Follow-up inspections are denoted with a “.1” appended to the original inspection number

• Inspector’s checklists alert them to items previously assessed remotely to reduce redundancy during the follow-up visit
Departures and Concerns from biosafety requirements now display the specific work objective(s) to which the findings are related

- Provides greater transparency on context of departures and concerns
- Allows entities to identify specific activities or Principal Investigators (PIs) that may need additional oversight or support

Prior to commencing select agent work, ensure that the biosafety cabinet has been certified.
Enhancements to Uploads for Supporting Documentation

- Previously, entities wishing to provide supporting documentation with their inspection responses had to manually enter the checklist unique identifier (UID) to which the document applied.

- Now, each departure or request for information contains an “upload” button that automatically associates the document with the correct UID.

- **Note:** Entity users must send their text response before the Upload button is available.
eFSAP Inspection Module Updates

New "Closed Conditionally" status for inspections and departures

• eFSAP supports a new "Closed Conditionally" status for inspections and departures
• Inspection will have the new "Closed Conditionally" status if one or more departures is closed conditionally
• No further action is needed at this time from the entity, but may be necessary in the future to fully close the requirement
eFSAP Inspection Module Updates

Closed Conditionally Status for Departures

- FSAP will provide a justification when a departure is closed conditionally
Additional Contact Information

- For technical assistance with eFSAP, or for assistance with the Secure Asset Management System (SAMS), please submit a help request ticket at eFSAP Customer Support Request Form, email eFSAPSupport@cdc.gov, or call 1 (877) 232-3322.

- For all other inquiries regarding your entity’s registration, please contact your designated FSAP point of contact (POC).
